

HORIZONS

IN MEMORY OF ALAN T. BABICH

"THOSE WHO INSTRUCT OTHERS IN VIRTUE SHALL SHINE AS STARS FOREVER."

Daniel 12:3

Dear Class of 2000:

In your last year of college, you have heard a great many predictions about life in the twenty-first century and, in fact, you have seen a great many portends of the future: technological innovation; cloning; the success of the Human Genome Project; the exploration of deep space; a global economy in operation. For your generation and for those to come, change will be a constant. St. Joseph's College has tried to prepare you for this world of change and, at the same time, to inculcate values that will provide an interior place for you to stand as you move about the larger world. These values are articulated in the mission of the college, "to prepare each student to lead a life characterized by integrity, intellectual and spiritual values, social responsibility and service—a life worthy of the College's motto, *Esse non videri*. "To be and not to seem."

Each year all academic ceremonies at the college take as their theme as one of the values proclaimed in the mission statement. This year, 1999-2000, we have focused upon integrity, that quality in a person that bespeaks wholeness and unity. Those among you who came to St. Joseph's as Freshmen in September, 1996, will remember Dr. Paul Ginnety's eloquent lecture on the subject of integrity which closed with the words of Sister Ita Ford, a martyred Maryknoll missionary. Sister Ita, addressing a beloved niece wrote, "I hope you come to find that which gives life a deep meaning for you. Something worth living for—maybe even worth dying for, something that energizes you, enlivens you, enables you to keep moving ahead. I can't tell you what it might be—that's for you to find, to choose to love. I can just encourage you to start looking and support you in the search." Sister Ita's words embody the meaning of integrity, and her hope for her niece echoes the hopes we have for you. Class of 2000.

Congratulations and blessings.

Sincerely,

Sister Loretta McGrann, Ph.D.
Academic Dean
College of Arts and Sciences

To the Class of 2000: Putting this book together took a lot of hard work and dedication; the same kind of hard work and dedication that it took all of you to achieve your goals. We are sure that there were times it seemed as if this day would never arrive, but now it is finally here. As you open this book you close another chapter of your lives, but this book will help you to forever remember the wonderful years that you spent at St. Joseph's College. To the Class of 2000; We say to you, Good Luck in the future and in all that you do. May your memories last forever . . .

INVESTITURE

On Friday, September 24, 1999, at 7:30 P.M., St. Joseph's College was pleased to present its annual investiture. Investiture is SJC's way of welcoming the new incoming freshman into college life and of honoring exceptional students from the SJC student community.

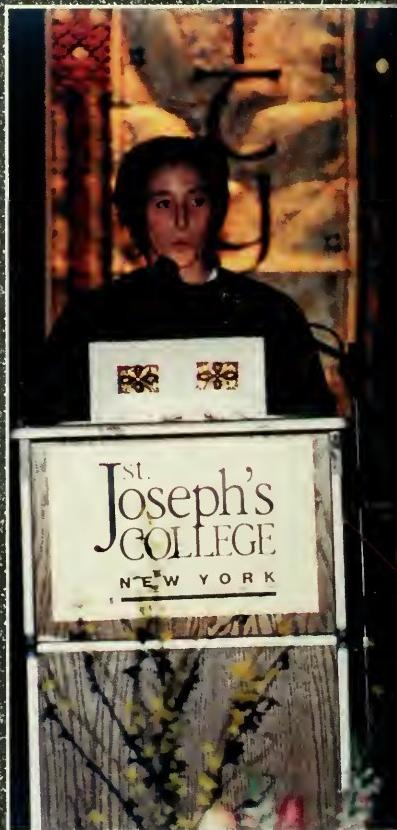

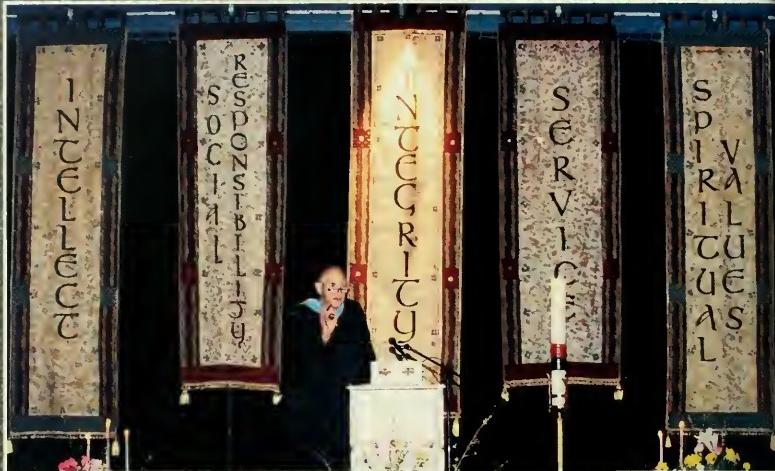

Student Government Association Officers (L-R) Treasurer Melissa Henn, Vice President Dana Nevela, President Jackie Becker and Secretary Tracy La Rosa.

Bottom: Christian Noboa, Ryan Barker, Ed Barbanete, Eric Rios, Jesse Abbatello.

Captains: Ed Barbanete, Billy Hender, Steve Brennen and the ECAC runner-up trophy.

Mike Symancyk holds all scoring records for SJC. He is #1 career assist leader with 47, #1 in career points with 171, and #2 in career goals with 63. As for his single season records, he is tied for #1 in single season points with 56 in 1999, #3 in single season goals with 22 in 1999 and #1 in single season assists with 15 in 1996. He is also 4 time receiver of the Hudson Valley Conference award.

Coach Smith ponders what to do next.

Coach "O" looks on in amazement as the eagles score again.

Team Captains Mike Clauberg, Jon Hardy, And Ed Miller

Women's Tennis

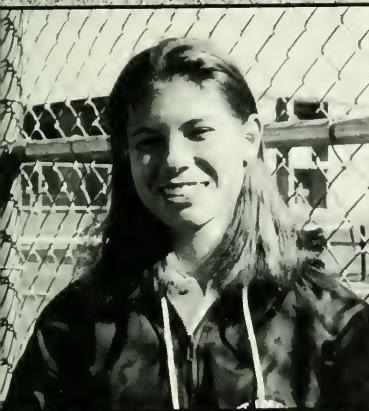

Lauren Cardella, co-captain has been a terrific leader and a constant winner.

Kristen Knatz, co-captain, led the squad as first singles.

Casey Wattecamps played 2nd singles in her first season.

Lynne Raffaele had the most wins & was the teams most reliable player.

Aimee Jackson a promising Freshman

Jen Hornberger Consistently Improved

Despite a 4-8 record, this year's Women's Tennis team has great promise. Five freshman will be returning. Also veteran returnees Lauren, Kristen, Deanna, and the 2000 team looks as a year of great progress for this squad. Unfortunately the team will have to say good-bye to Veronica Bradley as graduates this year.

Granger Collection

1000 Pilgrimages to religious sites are seen as acts of faith. Roads and towns develop along the pilgrim routes, expanding trade and communication in Europe. Beginning in 1096, Crusades to the distant Holy Land expose Europeans to Arab culture.

Granger Collection

1492 Thinking he has pioneered a westward route to the spice-rich East Indies, Christopher Columbus lands in the Bahamas. At the time of first European contact, about 90 million Native Americans live in North and South America.

1519 Spanish explorer Hernando Cortés introduces horses from Spain into the New World, changing transportation and culture for Native Americans. Cortés carries out a harsh conquest of Montezuma and the Aztecs.

1600

Stagecoaches offer public passenger service, and covering 15 miles a day is considered a good speed. The coaches travel in stages, changing horses at each stop. As a result, the stagecoach line is born.

Bettmann

1000 Leif Ericson reaches North America.

1110 Chinese invent magnetic compass.

1271 Marco Polo travels to China.

1500 Mercator creates his world map.

1750 First Conestoga wagons are built.

1839 Vulcanized rubber is invented.

1869 Transcontinental railroad spans U.S.

1004 Gondolas first appear in Venice.

1170 London Bridge is built.

1441 Portuguese explorers start slave trade.

1620 Mayflower lands at Plymouth Rock.

1804 Lewis and Clark explore American West.

1880 Practical internal-combustion engine appears.

1900 Public rides first escalator.

1600 Pirates terrorize the seas between 1690 and 1730. One of the most notorious pirates is Edward Teach, known as "Blackbeard." The fictional Captain Hook first appears in the 1904 play "Peter Pan" which inspires books, musicals and films throughout the century.

1770

During the Revolutionary War, a submarine is used in battle for the first time. Built by American David Bushnell, the one-person vessel is powered by a hand-cranked propeller. Twentieth-century submarines are complex, nuclear-powered craft used for defense and scientific purposes.

Granger Collection

1700 Birchbark canoes provide transportation for many Native Americans. The canoes are made with a light wood frame covered with pieces of bark sewn together and made watertight with melted pitch.

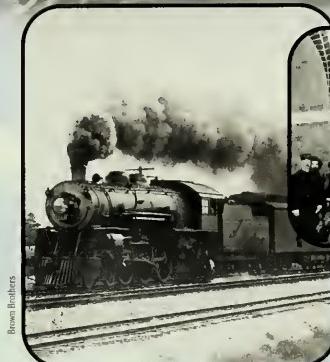

1770 The first practical wheelchairs provide new mobility for those unable to walk. Early models of wheelchairs have three wheels and hand cranks to propel the chair forward.

Granger Collection

1783 France's Montgolfier brothers launch the first hot-air balloon. Filled with smoke, the silk balloon rises to 6,000 feet. Later that year, the first passengers go aloft—a rooster, a duck and a sheep.

1000

Brown Brothers

Brown Brothers

Subways provide a new way to get around in ever-more-crowded cities. The world's first underground railway opens in London in 1863. By 1904, New York City inauguates its first rapid-transit subways.

Fratelli Stock Market

1825 Travel by rail revolutionizes land transportation. British engineer Richard Trevithick invents the first steam locomotive in 1804, but it is 1825 before railroads haul passengers.

1803 Humans achieve powered flight. The first flight of Wilbur and Orville Wright's *Flyer* lasts 12 seconds and carries Orville to a height of 10 feet above the beach at Kitty Hawk, N.C.

American Stock/Archive Photos

1903 Henry Ford's moving assembly line makes cars affordable to the masses. Ford produces the first Model T in 1908. In 1964, the sporty Ford Mustang rolls out at \$2,368 and sets an all-time record for first-year sales of a new model.

1811 First drive-in gas station opens.

1927 Lindbergh flies solo, nonstop over Atlantic.

1937 Hindenburg zeppelin crashes.

1961 Humans first orbit Earth.

1970 Supersonic passenger flight begins.

1983 Pioneer 10 spacecraft leaves solar system.

1997 Pathfinder and Sojourner explore Mars.

2000

1914 Cleveland, Ohio, pioneers traffic lights.

1925 Parking meters appear.

1958 Jet airline passenger service begins.

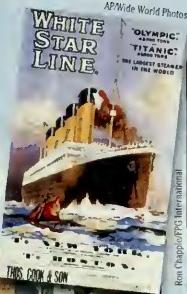

1975 McDonald's starts drive-through service.

1981 NASA develops space shuttle.

1994 "Chunnel" links U.K. to France.

1999 Piloted balloon circles globe nonstop.

1912 On her maiden voyage, the great steam passenger ship *Titanic*, thought to be unsinkable, goes down after hitting an iceberg in the North Atlantic. Of the more than 2,200 persons aboard the ship, about 1,500 perish.

Ron Rapoport/International

1969 Man walks on the moon. Apollo 11 astronauts Neil Armstrong and Buzz Aldrin plant the American flag 238,000 miles from Earth as an estimated 600 million people on Earth watch on television.

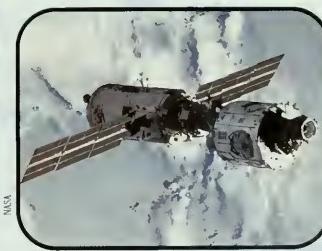

Peter W. Van Copus

2000

1903 First built in 1903, the Harley-Davidson becomes America's best-known motorcycle in the 1950s. Raw power and a distinctive rumble appeal to rebels of the 1950s and 1960s and to business executives of the 1990s.

1956 Freeways change the nature and pace of travel in America. In 1956, President Eisenhower authorizes construction of the Interstate Highway System. By the 1990s, this nationwide network includes more than 42,500 miles of highways.

1998 Orbital construction of the International Space Station (ISS) begins in 1998 when space shuttle Endeavor crew members connect the station's first two sections. ISS is to become the largest cooperative space mission in history.

Food

Pennisi

1000 As the millennium begins, European peasant food is plain and often scarce. Feasting on meat is reserved for the wealthy. Table utensils include only a knife; most people just eat with their hands. Slabs of dense bread, called trenchers, serve as plates.

1520 Chocolate from the New World takes Europe by storm. Brought to Spain from Mexico, chocolate is so costly that Europeans water it down for use as a drink. Natives of Mexico have prized chocolate since ancient times.

101 John Montagu, 4th Earl of Sandwich, instructs his servants to bring him his meat between two pieces of bread. This way he can eat with one hand while continuing to play cards with the other. The term "sandwich" is born.

Culver Pictures

1650 Europe's first coffeehouse opens in England. By 1700, there are 2,000 coffeehouses in London alone. Early coffeehouses are important places to transact business. Lloyd's Coffeehouse evolves into Lloyd's of London, the giant insurance brokerage.

King Features Syndicate/North American Syndicate

1100 Spices are costly luxuries.	1400 Spice trade inspires exploration.	1621 Native Americans introduce popcorn to colonists.	1845 Potato famine swells Irish emigration.	1867 Jell-O is a new treat.	1940 Tupperware is introduced.	1960 Packaged salads become available.	2000
1153 World's first restaurant opens in China.	1510 Forks first appear on tables.	1773 Boston Tea Party fuels rebellion.	1869 Canned foods appear in stores.	1905 First commercial pizzeria opens.	1962 Pop-top cans are created.	1996 Organic food sales soar.	

Brown Brothers

1840 Domestic ice chests provide early refrigeration. Blocks of ice are cut, delivered to homes and sold for use in kitchen ice chests. It is the early 1930s before reliable electric home refrigerators are in common use.

Matt Sayling/Sony

1870 America's first large self-service supermarket opens, followed by the invention of the grocery shopping cart in 1937. During the Depression, supermarkets become a significant part of the food distribution network.

Dave Barlow/PhotoAlto

1900 Choices expand in school lunch programs. A growing number of public schools begin featuring national fast-food outlets and soft drink brands in the school lunchroom.

Lamontville Photos

1870 Alexander Campbell, Brooklyn, is the first to deliver milk in glass bottles. For many years the neighborhood milkman is the most common way to obtain fresh milk, before the age of supermarkets.

1 0 0 0

Sports and Games

The Stock Market

1100 Archery competition is a common pastime in the Middle Ages. Archery skill is so important that English kings ban football because it takes men away from archery practice.

Europeans invent checkers and darts.

German bowlers use wooden pins, stone ball.

1707 Norway introduces alpine skiing as sport.

1855 Ice hockey originates in Canada.

1881 James Naismith invents basketball.

1934 LEGO company opens in Denmark.

1947 Football fans enjoy first Super Bowl.

2000 Game consoles incorporate PC technology.

1150 French enjoy early form of tennis.

1400 Native Americans play lacrosse.

1820 Scottish blacksmith invents pedal bicycle.

1844 Coney Island installs first roller coaster.

1880 Yo-yo is introduced in U.S.

1959 Barbie is born.

1980 Game consoles incorporate PC technology.

1845 Baseball is first played as an organized sport at Hoboken, NJ, when the New York Club defeats the Knickerbocker Baseball Club on June 19. More than 100 years later, Jackie Robinson breaks the color barrier in major league baseball in 1947.

Tom Espana/US Entertainment Communications

Game shows become widely popular TV fare in the 1950s. One of the top 10 shows of 1959, NBC's "The Price Is Right," still draws large audiences in 1999 on CBS, where it is the longest-running game show in television history.

1896 Athens, Greece, hosts the first modern Olympics. Winter Games are not held until 1924. At the 1998 Winter Olympics, American figure skaters Tara Lipinski and Michelle Kwan win the gold and silver medals respectively, and China's Lu Chen wins the bronze.

2000

1932 Parker Brothers introduces Monopoly, which becomes one of the world's most successful board games. By the late 1990s, the popular game is available on interactive CD.

1998 Michael Jordan, considered by many to be basketball's greatest player, retires from the NBA. His talents lead the Chicago Bulls to six NBA championships in the 1990s.

Reuters/Corbis-Bettmann

1900 Soccer is first played in America, using a sheep's bladder as a ball. As the millennium closes, millions of American youth play in organized soccer leagues. In 1999, the U.S. women's soccer team wins the World Cup.

Mary Evans Picture Library

1552 Europeans use engraved wooden blocks to print playing cards, one of the first uses of printing in Europe. Playing cards come to Europe from the Middle East during the Crusades.

Communication

© 2000 PhotoDisc, Inc.

Sign language is a means of communication for some early cultures. It bridges language differences between societies and eventually evolves into a formal alphabet for communication by the hearing impaired.

William Shakespeare's "Romeo and Juliet" is first performed. London's Globe Theater opens in 1599, where many of his plays are staged. By 1600, the great playwright pens at least 20 plays.

1000 Literacy is reserved for the clergy and a few students. Monks and scribes laboriously copy books by hand using goose-quill pens. Books are such rare treasures that in some libraries they are chained to the shelf.

© 2000 PhotoDisc, Inc.

1455 Johann Gutenberg invents a way to mass-produce the written word. He devises the first Western movable-type system and a new kind of printing press. Gutenberg's inventions speed the spread of knowledge and literacy.

PhotoDisc

1000 Most Europeans are illiterate.

1034 Chinese invent first movable type.

1202 Europe expands use of Arabic numerals.

1405 Printed music appears.

1503 Leonardo da Vinci paints *Mona Lisa*.

1670 Clockmaker designs first minute hand.

1776 Declaration of Independence creates U.S.

1000 Japanese woman writes the first novel.

1100 Some societies use smoke signals.

1307 Chaucer pens *Canterbury Tales*.

1500 Lead pencils make writing easier.

1647 British Navy originates signal flag messages.

1781 Mozart composes symphony at age eight.

1830 Braille develops reading system for the blind.

1600 The first regularly printed newspaper is a four-page weekly publication, the *Relation*, printed in Germany. It is 1702 before the first daily newspaper appears, *The Daily Courant* of London.

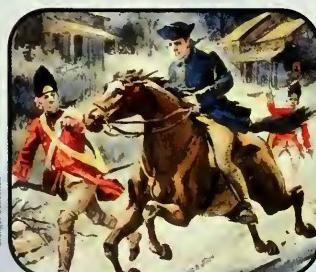

Liaison/Archive Photos

Instant long-distance communication is possible. Samuel Morse invents the telegraph and a dot-dash code to carry messages over a wire. In 1851, Hiram Sibley founds Western Union Telegraph Company.

Corbis Pictures

1120 Frenchman Nicéphore Niépce creates the first permanent photograph. His partner, Louis Daguerre, carries Niépce's work further by inventing a process of capturing images on metal plates.

1000

1775 One if by land, two if by sea. Lanterns signal the advance of British troops, and Paul Revere rides to warn American colonists of the attack. His famous ride also signals the beginning of the American Revolution.

© 2000 PhotoDisc, Inc.

1867 American Christopher Sholes invents the typewriter. To keep rapid typists from jamming the keys, Sholes designs the keyboard so that frequently combined letters are located far apart. This layout lasts into the computer age.

Austria introduces the first postcards. For only pennies, postcards keep people in touch before telephones are common. Calling cards, commercial valentines and other printed personal greetings are popular customs.

1873 Alexander Graham Bell patents the telephone. By the end of the millennium, missing a phone call is almost impossible as answering machines take instant messages. Cell phones, beepers and voice mail expand communication options.

1885 Guglielmo Marconi invents the radio, providing a way for sound to travel long distances without the use of wires. During the 1920s and 1930s, radio is the primary source of news and family entertainment for most Americans.

1860 Pony Express carries mail.

1890 Viewers marvel at early silent movies.

1920 Mickey Mouse appears on film.

1947 Bell Labs invents first transistor.

1963 King delivers "I Have a Dream" speech.

1968 Vietnam War sparks protests.

1989 Berlin Wall falls.

2000

1877 Edison invents phonograph.

1920 U.S. women win right to vote.

1933 Drive-in theaters attract crowds.

1957 Russia launches Sputnik.

1963 TV carries President Kennedy's funeral.

1981 MTV goes on air.

1990 HDTV becomes available.

1930 Movie making experiences a "golden age" in the late 1930s and early 1940s. In 1939, *Gone With the Wind* and *The Wizard of Oz* premiere. *Citizen Kane* follows in 1941, and *Casablanca* in 1942. Studio giants are MGM, Paramount, RKO and Warner Brothers.

1971 Personal computers become available to the mass market, thus paving the way for desktop publishing. By 1990, laptop notebook computers allow people to compute from almost anywhere.

Corbis

© Corbis

1954 Elvis Presley's unique blend of blues, country, rock and gospel draws adoring fans and makes him "the King" of rock and roll. In 1956, his debut album becomes the first in history to sell a million copies.

© 2000 PhotoDisc, Inc.

1926 Television is invented in 1926, and regular network TV broadcasts begin after World War II. One of TV's most popular shows is CBS's "I Love Lucy," premiering in 1951. Television transports almost every aspect of life in the twentieth century.

2000

Millions of people worldwide cruise the Information Highway via the Internet, and instantaneous e-mail communication becomes common. As the millennium ends, computer, TV, video and telephone technologies begin to converge.

fashion

Jon Gardiner/AB/Corbis Collection

1100 Medieval knights wear a short wool tunic and a coat of chain mail. Gauntlets (heavy leather gloves) and sword complete the attire, which is so costly only wealthy men can afford to be knights.

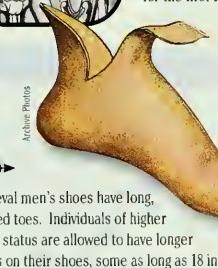

1278 Crusaders return from the Middle East with new ideas, including that of the glass mirror. In 1278, the glass mirror is produced in Venice, Italy, and Europeans see themselves clearly for the first time.

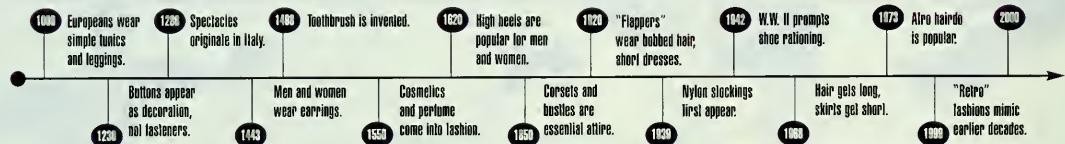

1558 Queen Elizabeth is the fashion trendsetter, popularizing the wide skirt, jeweled wig, high bald forehead, and decorative ruff around the neck. She is rumored to have 3,000 dresses.

Photo ©istock

1300 Medieval men's shoes have long, pointed toes. Individuals of higher social status are allowed to have longer points on their shoes, some as long as 18 inches. Moss stuffed into the toe maintains its shape.

Cover Pictures

1670 Men and women wear elaborate powdered wigs made of human hair, horsehair and goat hair. Because the large wigs are heavy and hot, some people shave their heads and wear a cloth cap under the wig to absorb perspiration.

Henry Diltz/Corbis

1855 With flowers in their hair and everywhere, hippies express their philosophy of world peace and love. Hippies favor bell-bottom jeans, granny dresses, bare feet, long hair, beads, headbands and bright colors.

1855 Young Levi Strauss comes to America in the 1850s and makes riveted canvas work pants for California gold miners. When he switches from canvas to blue denim, Strauss unknowingly creates one of America's greatest contributions to fashion.

Kuno Ochs/SYGMA/Corbis

1800 The Industrial Revolution brings mass-produced textiles, standard clothing sizes and the first ready-to-wear garments. In 1851, Isaac Singer invents the home-use sewing machine.

1 0 0 0

1956 Indoor malls are popular with teens not only for shopping, but also for socializing. The first enclosed mall is built in 1956. In 1992, the Mall of America, the largest mall in the U.S., opens in Minnesota.

In August, U.S. surgeons begin using computer-enhanced robotic technology for heart bypass surgery. Because the chest cavity is never opened, this technique reduces pain and shortens recovery time.

Flash

Researchers announce in July the creation of a cancerous human cell by genetically altering a normal one. This significant breakthrough is an important step toward developing drugs that could potentially wipe out cancer.

In December, IBM announces a \$100 million research initiative to build a supercomputer 500 times more powerful than current models.

1999

On August 11, the last total solar eclipse of the millennium crosses the globe. Thousands of people from Canada to India experience daytime darkness during which the moon completely covers the sun.

© Lester V. Bergman/Corbis

Parents, with help from their doctor, select the gender of their baby using a technique called MicroSort, which separates X-bearing (female-determining) and Y-bearing (male-determining) sperm. The success rate is about 92 percent for females and 69 percent for males.

Bettmann/Media

Researchers at Massachusetts General Hospital reveal in July that they have successfully regenerated the central nervous system of lab rats with severed spinal cords. Applications for human paralysis treatment are very encouraging.

A new board game, *Infection*, hits stores in July. Fun and educational, players race around the board catching diseases, described in detail, and trying to be cured.

In October, Sea Launch Company, a multi-national consortium, launches the first commercial satellite into space from a floating platform in the Pacific Ocean. Boeing is a major partner in the venture, along with companies in Russia, Ukraine and Norway.

Bettmann/Archive/Photos

Researchers report they have successfully altered the learning and memory behavior of mice by inserting a gene into their brains. This genetic engineering breakthrough may be helpful in treating human learning disorders and Alzheimer's disease.

Flash

In June, scientists announce the creation of two new elements. The nucleus of new, super-heavy element 118 decays into element 116 within a millisecond.

Scientists studying Albert Einstein's preserved brain report it has unique characteristics. The region governing mathematical ability and spatial reasoning is significantly larger than normal.

2000

The jawbones of two kangaroo-sized dinosaurs are discovered in Madagascar in October. Dated to the early Triassic period, 230 million years ago, the bones could be the oldest dinosaur fossils ever found.

Redferns/Corbis/Archive/Photos

Keystone/State/Archive/Photo/Archive/Photos

In October, biologists isolate one of the enzymes that sets Alzheimer's disease in motion. This scientific discovery will lead to new treatments and, possibly, a cure. Over 4 million Americans, including former President Ronald Reagan, are living with the disease.

AP/Wide World Photos

To mark the 30th anniversary of the first moon landing, astronaut Neil Armstrong's lunar footprint is featured on a 1999 postage stamp.

BUS

Lifestyle News

Cosmetic companies increasingly use entertainment celebrities instead of models for their advertisements. Sarah Michelle Gellar, Jennifer Love Hewitt, Jennifer Lopez and Shania Twain are among the celebs who appear in ads.

With the huge increase in cell phones, many cities enact laws restricting their use while driving. Restaurants and theaters are also requiring patrons to turn phones off as a courtesy to others.

Apple Computer introduces its new iBook laptop in September. The super-slim, neon-colored units follow the highly successful launch of the translucent iMac desktop.

The fashion accessory of 1999 goes by many names — power beads, mood beads and prayer beads. Many sellers claim the beads boost tranquility, energy, creativity and intelligence.

Ian Spanier

Courtesy of Levi's

In August, a Levi Strauss & Co. megastore opens in San Francisco. The store features a hot tub where shoppers can soak in their jeans for the perfect fit and a computer-scanning system to help customers get the right size.

Flash

In December, Honda introduces Insight, a car that combines a conventional gasoline engine with a small electric motor, decreases ozone and carbon dioxide emissions and gets 80 mpg.

Several companies offer "digital wallets" for teens who want to shop online but don't have credit cards. Parents deposit money into an online account, then teens can spend the money at designated Web sites.

1999

Airlines begin installing elaborate in-flight entertainment systems that allow passengers to watch movies, play computer games, listen to music, read headlines or browse the Internet.

Eric Sander/Liaison Agency

A continuation of the cargo pants trend, messenger bags with pockets galore hang at the hips of teens everywhere.

A new line of scented candles called Aromapharmacy comes in amber glass containers and looks like prescription drug bottles with creative names such as Ritalert, Cramprin and Valumello.

Courtesy Aromapharmacy
